OKLAHOMA STATE TREASURER

MONTHLY INVESTMENT
PERFORMANCE REPORT

MAY 2008

SCOTT MEACHAM
OKLAHOMA STATE TREASURER

June 25, 2008

To the People of Oklahoma:

I am pleased to issue the May monthly investment performance report for the Office of the State Treasurer. I trust you will find it thorough and in keeping with my commitment to provide full disclosure of all activities within my office. As always, my staff is available to answer any questions you might have.

Market Conditions

Record oil prices resulted in Treasuries posting a second straight monthly drop in yield. Yields were up an average of 34 basis points with the largest gains at the short-end of the yield curve. The yield on the two-year Treasury Note was up 39 basis points in May and 106 basis points for the past two months. At month-end the yield for the 10-year Treasury Note closed above 4% for the first time since January. The S&P 500 extended its 4.8% April gain in May following five straight months of declines. The Dow Jones Industrial Average (DJIA) retreated 1.4% for the month and the Nasdaq increased 4.6% in May. On May 30, more than 1.42 billion shares traded on the New York Stock Exchange, the most since the last day of April. The Russell 2000 Index climbed 0.4% to 748.28.

Economic Developments

The Institute for Supply Management reported that its index of manufacturing activity was unchanged at 48.6 in April. A number below 50 indicates contraction. Exports continued to rise and price increases are occurring throughout the economy. The unemployment rate declined to 5% from 5.1% in April reflecting an increase in part-time jobs. The number of workers with full time jobs declined. Average hourly earnings increased only 0.1%, rising 3.4% over the past year. The total number of hours worked fell 0.4%. The Labor Department reported producer price index (PPI) rose 0.2% in April, compared to a 0.2% gain in March and a 0.5% jump in February. The consumer price index (CPI) increased 0.2% after a 0.3% gain in March. Cheaper costs for cars and hotel rooms offset the biggest jump in food in 18 years. Fuel oil costs jumped 4.4% and natural gas prices dropped 2%. The U.S. trade deficit gap shrank to \$58.2 billion in March, the lowest this year. Purchases of crude oil dropped and the quantity of petroleum bought from overseas was the lowest since February 2007. The Conference Board's consumer confidence index fell to 57.2 in May. This is the lowest level since 1992. Consumers are increasingly concerned with the slide in home values, rising unemployment and the prospect of \$4 a gallon gasoline. Gross Domestic Product (GDP), a measure of all the goods and services produced in the U.S., grew 0.9% from January through March as Americans bought fewer goods from abroad. Exports rose 2.8% in the first quarter and a 2.6% drop in imports contributed to the overall improvement. Home prices for existing homes nationwide declined 14.1% for the first quarter of the year. Home prices nationwide are now 16% below their peak in the second quarter of 2006. The median price for a new home rose 1.5% to \$246,100 in April but the gains aren't expected to continue with the large inventory of unsold homes.

Portfolio Commentary: Performance, Diversification, and Strategy

Yield on the Treasurer's portfolio was 4.14% in May and the weighted average maturity was 475 days. With regard to weightings, funds from maturing Commercial Paper and in money market mutual funds were invested in U.S. government sponsored enterprises and Mortgage-backed securities. Reversing the previous two months contraction, the year-to-date monthly average investable base rose by \$4.3 million to reach \$3.540 billion. Portfolio diversification continues to be sound. U.S. Treasuries represented 13% of holdings, and U.S. government sponsored enterprises accounted for approximately 43%. Mortgage-backed securities were 13% and Commercial Paper was 1% of the portfolio. Certificates of Deposit represented 8% of assets, money market mutual funds 6%, and 9% was maintained in overnight repurchase agreements. Link deposits (at 2%), State Bond Issues (at 5%) and foreign bonds (at less than 1%) made up the balance of funds invested. In keeping with the State's statutory investment objectives, the portfolio strategy continues to seek safety, liquidity, and return on investment, in that order. Based on market conditions, portfolio strategy will consist of a combination of laddered maturities and market observation for investment opportunities.

Collateralization

All funds under the control of this office requiring collateralization were so secured at rates ranging from 102% to 110%, depending on the type of investment.

Payments, Fees, and Commissions

All securities were purchased or sold on a net basis utilizing competitive bidding where practicable, with no additional fees or commissions known to the State Treasurer. Bank fees, mutual fund operating expenses and fees charged by JPMorgan Chase for the Tri-Party Repurchase Agreement Program are detailed in the attached pages, as is the earnings split between the Treasurer and the master custodian bank on securities lending income.

Sincerely,

SCOTT MEACHAM, STATE TREASURER
SECRETARY OF FINANCE AND REVENUE

Explanation of Performance Comparison May 31, 2008

The following page presents market rates of return on the Securities portion of the General Account and of the State's aggregated State Agency Accounts. The figures, which are dollar- and time-weighted, where appropriate, are calculated using the percentage change in market value (inclusive of accrued income) from the end of the prior month to the end of the reporting month. To ensure the integrity of the data, this information is provided by the Treasurer's custodian bank acting in its capacity as an external third party. As such, performance measurement is presently confined to those investments which are custodied at Northern Trust ("Northern").

The Treasurer's office is trying to develop a method to report rates of return on all investment instruments in the State's portfolio. This is in an effort to report return data in a manner recommended on September 15, 1994, by the Working Group of the Cash Management and Investment Oversight Commission. However, there are technical and conceptual challenges to expanding performance measurement to other portions of the portfolio. Attempting to apply market-base pricing calculations to instruments which do not trade, such as Certificates of Deposit, presents difficulty which is both conceptual and technical in nature.

Benchmark data is also provided on the following page.
